

"GABBY DURAN & THE UNSITTABLES"

Multitalented actress and musician Kylie Cantrall stars as the effortlessly cool and resourceful teen Gabby Duran, who doesn't blink an eye when she's chosen to babysit aliens—an especially unruly group of VIP extraterrestrials disguised as everyday kids. Never one to back away from a challenge, Gabby goes to great lengths to protect her new charges and their secret identities in this funny, out-of-this-world adventure series based upon the novel written by Elise Allen and Daryle Conners.

Although Gabby's unique point-of-view and quirky fashion sense make her completely different from her uber-polished mother Dina and whip-smart younger sister Olivia—who have so much in common, they even dress alike—she values her close-knit family. She also leans on her best friend Wesley, a conspiracy theorist who is always on the lookout for strange phenomena.

But Gabby's keeping a secret: she knows that her middle school principal, the eccentric and unpredictable Principal Swift, is actually a shape-shifting alien from Gor-Mon who watches over the extraterrestrial children hiding out on Earth. "Swifty" often enlists her to babysit these alien youngsters, including his nephew Jeremy, a shapeshifter and heir to the Gor-Monite throne who unfortunately explodes if he ingests too much soda-pop.

With each new alien child that she meets, Gabby learns about empathy and the importance of accepting those who are different. Her resourcefulness and determination are also valuable assets when taking care of a telepath or a youngster with tentacles. Despite the difficulty of keeping her interstellar employment secret from her classmates and society at large, Gabby boldly sets out to prove she's the best babysitter in the galaxy.

"Gabby Duran & the Unsittables" stars Kylie Cantrall as the title character, Nathan Lovejoy ("The Code") as Principal Swift, Coco Christo ("We Take the Low Road") as Olivia, Maxwell Acee Donovan ("Good Kids") as Wesley, Callan Farris ("Kings") as Jeremy and Valery Ortiz ("Switched at Birth") as Dina.

Writers Mike Alber and Gabe Snyder ("Kirby Buckets") serve as executive producers alongside Joe Nussbaum ("Just Add Magic"). "Gabby Duran & the Unsittables" is a production of Gabby Productions, Ltd., a subsidiary of Omnifilm Entertainment, Ltd.
